| About the Conference

24th International Conference on Perspectives in Business Informatics Research (BIR 2025), Riga, Latvia

September 17th-19th, 2025

<https://bir2025.rtu.lv>

CALL FOR PAPERS

BIR 2025 solicits contributed papers in the area of Business informatics. This year the main theme "Bridging Knowledge, Process, and Systems for Responsible Digital Transformation" explores how the integration of knowledge management, process modeling, and information systems can drive responsible digital transformation in business environments.

We welcome submissions addressing the above main theme, the topics listed below, and combinations of both.

- Ethical and Responsible AI Use for Business Informatics
- Model-based Business Informatics
- Data and Knowledge in Organizational Digital Transformation
- Responsible Business and Information Systems
