| About the Conference

The 2nd Conference on Advanced Supply Chain and New Technologies (ASCaNT'25) will be held within the IEEE CiSt'2025 international congress the week of 04th - 10th October 2025, Ouarzazate - Marrakech, Morocco.

The advent of Industry 4.0 has brought innovative technologies like IoT, Artificial Intelligence, blockchain, enabling real-time visibility, predictive analytics, and automated workflows. Industry 5.0 builds upon this foundation, emphasizing, especially, human-machine collaboration, resilience, sustainability and customization to meet diverse customer needs.

The emergence of these industries (Industry 4.0/ 5.0) has further reshaped supply chain operations management by integrating innovative technologies, creating new opportunities for growth and innovation. However, these advancements also bring significant challenges in terms of customization, adoption, and deployment. As supply chain operations continue to transform in response to these technological advancements,

Important Dates

OCT
04

CONFERENCE
DATE
**October 4-
10, 2025**

Organizations must acquire new functional and technical skills to operate in an increasingly complex and dynamic environment.

This workshop aims to discuss these latest trends and their impact on supply chain management and operations. It seeks to generate valuable insights for practitioners, organizations, and enterprises in both emerging and developed countries.

CHAIRS

Prof. Laila EL ABBADI, ENSA-Kenitra, Ibn Tofail University, Morocco

Prof. Mohamed Lamrini, FSDM, Sidi Mohamed Ben Abdellah University, Fez, Morocco

TOPICS

In this conference we will explore the following topics (but not limited to):

- Industrial internet of things
- Blockchain technology for industrial field
- Industrial management and automation challenges
- New and emerging technologies for supply chain management
- Machine learning and multi-agent systems in the industrial field
- Supply chain X.0 and production systems
- Smart transportation and warehouse management solutions
- Advanced risk and change management project
- Engineering and lean automation practices
- Trends in quality management and assurance
- Monitoring, evaluation, and control mechanisms
- Economics and business models in the era of

Industry X.0

-- Lifecycle management and digitalization

By focusing on these topics, we aim to foster discussions, share knowledge, and inspire innovative approaches to tackle the evolving landscape of supply chain management.

PUBLICATION

Accepted papers will be published in the proceeding and submitted to IEEE Xplore Library, Scopus and DBLP. Furthermore, Authors of high quality papers will be invited to submit an extended version of their work for publication in a special issue/section of an international journal.

IMPORTANT DATES

Paper Submission: 09 March 2025

Acceptance Notification: 23 April 2025

Camera-ready Submission: 25 May 2025

Author's Registration: 10 June 2025

Conference Dates: October 04 -10, 2025

Please get in touch if you would like to contribute in more ways; and feel free to circulate this information among your colleagues and PhD students.

If you need more information, you can email the congress committee:

TOPICS OF INTEREST

4 topics

Research papers are invited in, but not limited to, the following areas:

Uncategorized

Cybersecurity & Privacy

Manufacturing & Industrial Engineering

Business & Management

© 2026 CallForPaper.org - All Rights Reserved

Providing global research dissemination and event management services.
