

🌐 Peru 📅 October 15-17, 2025

CONFERENCE WEBSITE: <https://cimps.org/>

| About the Conference

We are pleased to invite the academic, government and business community to participate in the CIMPS'25 (14th International Conference on Software Process Improvement), it will be held from 15 to 17 of October 2025. The Conference will take place in Lima, Perú. The CIMPS is a global forum for researchers and practitioners that present and discuss the most recent innovations, trends, results, experiences and concerns in the several perspectives of Software Engineering with clear relationship but not limited to software processes, Security in Information and Communication Technology, Artificial Intelligence and Data Science Field (Submitted papers should follow the main themes proposed for the Conference (the topics proposed were not intended as restrictive)):

Organizational Models, Standards and Methodologies

Knowledge Management

Software Systems, Applications and Tools

Information and Communication Technologies

Processes in non-software domains (Mining, automotive, aerospace, business, health care,

manufacturing, etc.) with a demonstrated relationship to software process challenges. New trends and applications related to Software Engineering.

Three types of papers can be submitted in english or spanish language:

Full paper: Finished or consolidated R&D works. These papers will be assigned an 10/14-page limit.

Company or industrial paper: papers that show practical experience, R & D, tools, etc., focused on main topic of the conference. These papers will be assigned to a 6/8-page limit.

Poster paper: Ongoing works with relevant preliminary results, will be opened to discussion. These papers will be assigned a 4-page limit.

* Paper Submission: June 27, 2025.

* Notification of acceptance: August 08, 2025.

* Submission of accepted papers (Camera ready papers): August 22, 2025.

* Payment of registration, to ensure the inclusion of an accepted paper in the conference proceeding: August 29, 2025.

Publication and Indexing:

To ensure that a full, industrial and poster paper was published in the Conference Proceedings, at least one of the authors was fully registered by August 07, 2023, and the paper must have complied with the suggested layout and page-limit. Additionally, all recommended changes were

addressed by the authors before they submitted the camera-ready version.

No more than one paper per registration was published in the Conference Proceedings, with a maximum of one additional paper per registration. An extra fee was paid for publication of additional paper.

All accepted papers in Spanish and posters-paper in Spanish and English will be submitted for inclusion into IEEE Xplore subject to meeting IEEE Xplore's scope and quality requirements. The accepted articles will be published in a proceedings book.

All Full and company or industrial paper accepted and registered in English Language will be published in Proceedings by Springer, will be submitted for indexation by ISI, EI-Compex, SCOPUS and DBLP, among other, and will be available in the SpringerLink Digital Library. Published by Springer. This year the articles will be published as a Book in a Book series Studies in Computational Intelligence, not as a proceedings book.

The authors of the best selected papers in English and Spanish will be invited to extend them for publication in international journals indexed by ISI/SCI, SCOPUS and/or DBLP, among others.

All papers will be subjected to a "double-blind review" by at least two members of the Program Committee.

☰ TOPICS OF INTEREST

3 topics

Research papers are invited in, but not limited to, the following areas:

◦ Computer Science
& Software
Engineering

☑ Uncategorized

◦ Artificial
Intelligence &
Machine Learning
