## | About the Conference

“Scholars Conferences proudly invites all the participants and sponsors across the globe to attend the “7th Edition of World Heart Congress” during September 23-25, 2024 in Singapore”. Aim and Scope: Heart Congress 2024 additionally advances progressed gadgets and apparatuses that can be utilized to diminish the number of heart sicknesses that happen all over the planet, giving energizing businesses open doors to the new market in the medical services area. Heart issues arrive in different structures, requiring more prescriptions than at any other time. For more details, visit:

<https://scholarsconferences.com/heartcongress/about-conference> The main goal of this meeting is to disseminate rational and restorative investigation and thoughts about heart-related difficulties, which include numerous concerns, all over the world in order to work on understanding. We encourage events such as the Heart Congress 2024 to create global awareness about cardiovascular issues through global decisions and discussions that will result in remarkable solutions for existing heart and related medical disorders.

### Important Dates

 **CONFERENCE DATE**  
**September 23-25, 2024**

The Cardiology 2024 Conference provides a stimulating chance for the developing generations engaged in numerous cardiac research projects to advance their expertise in the field of cardiovascular diseases. It will also share scientific knowledge and experience, giving people the chance to learn about various cardiac disorders and cardiovascular treatments. Heart Congress 2024 is intended to provide a revolutionary professional evolution experience that addresses the whole range of ongoing cardiology research as well as the use of innovative technologies in the treatment of heart failure or cardiovascular diseases. This colloquium will bring together top academicians, scientists, researchers, healthcare professionals, cardiologists, heart care specialists, students, and industry spokesperson to talk about methods for treating heart diseases, cardio medicine, paediatric cardiology, heart failure, electrocardiography, and other health issues. We intend to provide a range of information that will aid specialists with problems affecting the diagnosis, prognosis, and treatment of cardiovascular diseases. Speakers at this conference are well-known and knowledgeable, covering both general and niche areas of interest.
