| About the Conference

★2025 9th International Conference on Deep Learning Technologies (ICDLT-2025) - Scopus & Ei Compendex Index★

★Full name: 2025 9th International Conference on Deep Learning Technologies (ICDLT 2025)

★Abbreviation: ICDLT 2025

★Website: <https://icdlt.org/>

★Time: July 16-18, 2025

★Place: Chengdu, China

2025 9th International Conference on Deep Learning Technologies will be held during July 16-18, 2025 in Chengdu, China. It's organized by Sichuan University and IEEE, and organized by the School of Electronics and Information Engineering of Sichuan University. It's to provide a valuable opportunity for researchers, scholars and scientists to exchange their ideas face to face in Deep Learning Technologies.

Deep learning is the fastest-growing field in artificial intelligence, helping computers make sense of infinite amounts of data in the form of images, sound, and text. Using multiple levels of

neural networks, computers now have the capacity to see, learn, and react to complex situations as well or better than humans. This is leading to a profoundly different way of thinking about your data, your technology, and the products and services you deliver.

We invite researchers from deep learning technologies to participate and submit their work to the program. Likewise, any work on deep learning that has a relation to any of these fields or potential for the usage in any of them is welcome.

★★ Publication

The accepted paper will be included into ICDLT 2025 Conference Proceedings and indexed by Ei Compendex, Scopus.

- ICDLT has very credible publication index records via <https://icdl.org/pub.html>

★Call for paper★

Topics of interest include, but are not limited to:

Track 1: Applications of Deep Learning in software

Track 2: Applications of Deep Learning in hardware

Track 3: Conceptual talks and cutting edge
research on Deep Learning

Track 4: Building businesses with Deep Learning at
the core

For more topics, please visit at

<http://www.icdl.org/cfp.html>

★Submission★

1. Full paper (publication and presentation)

2. Abstract (presentation only)

For paper submission, please upload it to the
Electronic Submission System:

<https://www.zmeeting.org/submission/icdl2025>

or send it to icdl@young.ac.cn

Full paper submission template:

https://icdl.org/acm_template.docx;

<https://icdl.org/LaTeX-Templates.zip>

More detail about submission, please visit at

<https://icdl.org/sub.html>

★★Conference Schedule★★

July 16, 2025---Sign-in for ICDLT 2025 (Conference
Material Collection)

July 17, 2025 (Morning)---- Opening Remarks &
Keynote Speech

July 17, 2025 (Afternoon)---- Parallel Sessions

July 18, 2025----- Parallel Sessions

- About Chengdu -

Chengdu, the capital city of Sichuan Province in
China, is located in the southwest region of the
country. It has a history of more than 2,300 years

of city construction and is one of the first batch of famous historical and cultural cities. The ancient Shu civilization originated here, and the Jinsha Site and Sanxingdui Site witness its ancient and glorious past. It is also an important birthplace of the Three Kingdoms culture, and the Wuhou Temple carries rich historical connotations. Its cultural heritage is profound and diverse, with traditional crafts such as Shu embroidery and Shu brocade. Sichuan Opera is famous for its unique skills such as face-changing and fire-spitting. Located in the western part of the Sichuan Basin and the hinterland of the Chengdu Plain, it has a flat terrain, fertile soil, and the Dujiangyan water conservancy project. The climate is a subtropical monsoon climate, with hot and rainy summers and mild and less rainy winters. The average annual temperature is about 16°C.

It is known as the "Food Capital", with a wide variety of delicious foods such as hot pot, skewers, and Sichuan cuisine, as well as rich snacks such as Long Chao Shou (Wonton) and Zhong Shui Jiao (Boiled Dumplings). There are numerous tourist attractions. Qingcheng Mountain has the reputation of "Qingcheng Mountain is the most secluded under heaven". The Dujiangyan scenic area has an ancient water conservancy project and natural scenery. Kuanzhai Alley can offer an experience of the old Chengdu life, and Jinli Ancient Street is full of the atmosphere of the Three Kingdoms culture and the aroma of snacks.
