| About the Conference

The IEEE Malaysia Industrial Applications/Industrial Electronics Joint Chapter is proud to organize the 2026 8th IEEE Symposium on Computers & Informatics (ISCI2026), which serves as a premier platform for researchers, industry leaders, and innovators to explore groundbreaking advancements in Artificial Intelligence and Machine Learning, Computer Applications, Engineering & Informatics, Computer Networks and Communications, Industrial Electronics & Applications, Internet of Things (IoT) and others. Under the theme "Advancing Technology for Humanity", this conference will highlight transformative trends, emerging technologies, and innovative solutions that shape the future of technology and engineering.

Areas of Interest

- * Artificial Intelligence and Machine Learning
- * Computer Applications, Engineering & Informatics

📅 Important Dates

APR 30 PAPER SUBMISSION
30th April, 2026
Closed

MAY 01 FINAL VERSION DUE
1st May, 2026

AUG 08 CONFERENCE DATE
August 8-9, 2026

- * Computer Networks and Communications
- * Industrial Electronics & Applications
- * Internet of Things (IoT)

All submitted papers will undergo a rigorous peer-review process to ensure the highest quality of academic content. Each submission will be evaluated by at least 3 independent reviewers. Reviews are conducted on the basis of technical quality, originality, significance, clarity, and relevance to the conference scope.

Review Process

- * Double-blind peer review
- * Evaluation based on technical merit, novelty, and presentation quality
- * Detailed feedback provided to authors for improvement
- * Final decisions communicated with reviewer recommendations
