# International Conference on Intelligent Systems and Data-driven Computing

LOCATION	SUBJECT / TOPIC	EVENT DATES	LAST UPDATED
India	General	November 20-21, 2026	10th July, 2026

## DESCRIPTION

International Conference on Intelligent Systems & Data-driven Computing ISDDC-2026 will be organized by BabuBanarasi Das Institute of Technology & Management, Lucknow, on 20-21 November, 2026. The Conference aims to bring together scientists, academicians and industrialists working in the field of Intelligent Systems & Data-driven Computing to discuss new ideas and promote research work

The conference will be devoted to all developments in Intelligent Systems & Data-driven Computing. Researchers from all over the country and abroad will gather physically in order to introduce their recent advances in the field and thereby promoting exchange of new ideas, results and techniques. The conference will be a catalyst in promoting research work, sharing views and getting innovative ideas in this field.

ISDDC will attract researchers from across the world in the form of Invited Talks, Contributory Papers, Participation from Reputed Institutes of India and Abroad, Research Labs, Industry etc. Some of the research areas are given below:

Artificial intelligence, Machine Learning and Data Sciences  
Wireless Communication, WSN & Adhoc Networks  
Cloud Computing, 5G & IoT Signal Processing  
Medical Signal and Image Processing  
Image and Video Processing  
Pattern Recognition and Computer Vision  
Computational Electromagnetics, RF, Microwave & Antenna  
Photonics & Optical Communication  
Robotics and Embedded Systems  
Sensors & Sensor Technology  
VLSI & Micro Electronics  
Power System Modelling, Control Systems and Renewable Energy System  
Advanced Computing Technologies

## KEY DEADLINES

Conference **20th Nov, 2026**
