

📅 July 2-3, 2026

CONFERENCE WEBSITE: <https://sites.google.com/view/lt-edi-2026/home>

| About the Conference

Sixth Workshop on Language Technology for Equality, Diversity and Inclusion (LT-EDI-2026) at The 64th Annual Meeting of the Association for Computational Linguistics (ACL) 2026 Place: San Diego, California, United States

Link: <https://sites.google.com/view/lt-edi-2026/home>

Tagline: Towards Fair and Inclusive Language Technologies for All.

Call for Papers:

Following the success of the first five editions of the LTEDI 2026 workshop (LDK 2025, EACL 2024, RANLP 2023, ACL 2022. EACL 2021), the workshop aims to bring together researchers and practitioners working on NLP, LLMs and other AI fields with social scientists and interdisciplinary researchers. LT-EDI-2026 invites theoretical, empirical, and applied papers from the Natural Language Processing (NLP), Artificial Intelligence (AI), and interdisciplinary communities particularly those focusing on bias in language technologies.

Important Dates

 CONFERENCE DATE
July 2-3, 2026

Topics of interest include, but are not limited to:

Datasets, and Benchmarks for Equality, Diversity, and Inclusion

Construction and annotation of datasets for EDI, including benchmarks for bias detection and mitigation.

Compilation of resources curated for fairness, inclusivity, and accessibility.

Methodologies for annotating intersectional identities (gender, race, disability, religion, sexual orientation, etc.).

Bias Detection and Mitigation in LLMs

Techniques for identifying, measuring, and mediating gender, racial, disability, and other societal biases in NLP and LLMs.

The impact of bias in deployed NLP/LLM systems

Gender-neutral modeling and representational fairness in LLMs

Detection and mitigation of intersectional biases including gender, racial, gender identity, disability, and other societal biases.

Advances in bias mitigation in large language models: in-context learning, prompt engineering, conditional text generation, and adversarial training.

Inclusive Language and Counter-Narratives for LLMs

Algorithms and resources for inclusive language generation with LLMs.

Counter-narrative modeling for combating toxicity, hate speech, and misinformation targeting marginalized communities.

Dialogue systems and multi-agent approaches that align with inclusivity goals.

Human-in-the-loop and participatory strategies for enhancing inclusiveness.

Multilingual and Multicultural Approaches for LLMs

Multicultural and multilingual LLMs and approaches

Speech and language recognition for minority and under-resourced groups

Code-mixed and cross-lingual approaches for inclusive technologies

Responsible, Explainable, and Trustworthy LLMs for EDI

Detecting and mitigating hallucinations, misinformation, and toxicity in LLM systems

Explainable and trustworthy LLMs

Evaluation frameworks incorporating ethics,

accountability, and transparency

Direct paper submission deadline: March 5, 2026

Pre-reviewed ARR commitment deadline: March 24, 2026

Notification of acceptance: April 28, 2026

Camera-ready paper due: May 12, 2026

Pre-recorded video due (hard deadline): June 4, 2026

Workshop dates: July 2-3, 2026

TOPICS OF INTEREST

2 topics

Research papers are invited in, but not limited to, the following areas:

Uncategorized

Artificial
Intelligence &
Machine Learning
