Last Call for Regular/SS/Demo Papers for MMM 2027

We are pleased to invite submissions to the 33rd International Conference on Multimedia Modeling (MMM 2027), which will be held in Siem Reap, Cambodia, from 5–8 January 2027.

MMM is a leading international forum for researchers and practitioners to present and discuss new ideas, original research results, methodologies, systems, and applications in multimedia modelling and related areas.

MMM 2027 welcomes high-quality original research papers in all areas of multimedia modelling, processing, analysis, retrieval, generation, interaction, and applications. Topics of interest include, but are not limited to:

MMM 2027 proposes five special sessions:

- * Embodied Multimedia Modeling
- * From Micro to Macro: Video Understanding in the Era of Multimodal Large Models
- * Multimodal Agentic Systems and Applications
- * Reconstruction and Generation of Humans, Objects, and Scenes for Spatial Intelligence
- * Multimodal Computer Vision in Medicine: Bridging Data Modalities for Clinical Impact

Submission Deadlines

- * 16 Aug 2026 Regular paper and special paper submission deadline
- * 07 Sep 2026 Demo paper submission deadline

KEY DEADLINES

| | |
|--------------|-----------------------|
| Submission | 16th Aug, 2026 |
| Notification | 16th Oct, 2026 |
| Camera Ready | 1st Nov, 2026 |
| Conference | 5th Jan, 2027 |

CALL FOR PAPER URL
<https://callforpaper.org/cfp/call-for-papers-mmm-2027>

- * 16 Oct 2026 Acceptance notification
- * 01 Nov 2026 Camera-ready deadline

Submission website is now open. Regular paper submissions are limited to 12 content pages, including all figures, tables, and appendices with up to 2 additional pages for references, in the Springer LNCS style

MMM seeks contributions on the following research topics:

Multimedia Content Analysis

- * Multimedia indexing, mining and retrieval
- * Multimedia abstraction and summarisation
- * Multimedia annotation, tagging and recommendation
- * Multimodal analysis for retrieval applications
- * Semantic analysis of multimedia and contextual data
- * Interactive multimodal analysis
- * Multimedia knowledge acquisition and construction
- * Multimedia verification
- * Multimedia fusion methods
- * Multimedia content generation

Multimedia Signal Processing and Communications

- * Media representation and algorithms
- * Audio, image, video processing, coding and compression
- * Multimedia sensors and interaction modes
- * Multimedia privacy, security and content protection
- * Multimedia standards and related issues
- * Advances in multimedia networking and streaming
- * Multimedia databases, content delivery and transport
- * Wireless and mobile multimedia networking
- * Multimedia security and privacy
- * Sensor networks (video surveillance, distributed systems)
- * Multi-camera and multi-view systems

Multimedia Applications and Services

- * Media content browsing and retrieval tools
- * Augmented and virtual reality; virtual environments and real-time interactive applications
- * Multimedia applications
- * Multimedia analytics applications
- * Mobile multimedia applications
- * Multimedia authoring and personalisation
- * Multimodal conversation, Q&A and recommendation systems
- * Educational and social multimedia applications
- * Multimedia for e-health and medical applications
- * Emerging trends such as multimedia research commercialisation and digital transformation

Further details are available on the MMM 2027 website:

<https://mmm2027.net/>

We look forward to receiving your submissions and welcoming you to MMM 2027 in

Siem Reap.

Best regards,
The MMM 2027 Organising Committee
