

📅 July 10, 2026

🕒 **Submission Deadline: 22nd May, 2026** — 15 days remaining

CONFERENCE WEBSITE: <https://multipli26.di.unito.it/>

| About the Conference

As healthcare data becomes increasingly distributed across institutions, unlocking its full potential for AI-driven medicine remains a major challenge. Strict privacy regulations, data governance constraints, and institutional boundaries often prevent data sharing, limiting the development of robust and generalizable models. Federated Learning and related privacy-preserving approaches offer a promising solution by enabling collaborative learning without exchanging sensitive patient data.

MULTIPLi Health aims to bring together researchers and practitioners working on multicentric and privacy-aware AI in healthcare. We invite submissions on methods, systems, and real-world applications that address the challenges of learning from heterogeneous, distributed data, with a focus on privacy, robustness, trustworthiness, and clinical impact.

📅 Important Dates

MAY 22
PAPER SUBMISSION
22nd May, 2026
• 15 days left

JUN 05
NOTIFICATION
5th June, 2026

JUL 10
CONFERENCE DATE
July 10, 2026

We welcome contributions including but not limited to:

- Federated and distributed learning for healthcare
- Privacy-preserving machine learning
- Learning under data heterogeneity and imbalance
- Multicentric, multi-modal, and longitudinal data analysis
- Evaluation, benchmarking, and reproducibility
- Systems and infrastructures for collaborative AI
- Clinical applications and real-world deployments
- Trust, robustness, fairness, and explainability
