

## | About the Conference

Following the success of NAMSP'2024, it is our pleasure to announce the 6th International Workshop on New Approaches for Multidimensional Signal Processing (NAMSP'2025). The purpose of the workshop is to bring together researchers working in the various areas of Multidimensional Signal Processing and its applications. Authors from fields like Telecommunications, Computer Vision, Bioinformatics, Remote Ecological Monitoring, Agriculture, Forestry, and many others are welcome to share recent results. The workshop includes topics like: Digital Image Processing, Heterogeneous Data Clustering, Spatio-Temporal Filtering, Multidimensional Interpolation, Multidimensional Object Segmentation, Tensor Processing, Multiview Representation, Multidimensional Visualization, Deep Learning, Pattern Recognition, Virtual and Augmented Reality and others. Authors from around the world could exchange ideas and cooperate in a friendly framework.

NAMSP'2025 will take place at the Technical University of Sofia, Sofia, Bulgaria between 24th

### Important Dates

 CONFERENCE DATE  
**July 24-26, 2025**

and 26th of July 2025. We hope that the participants will appreciate beautiful Sofia.

You are cordially invited to submit a paper to NAMSP'2025.

If you have any question, please, feel free to contact us.

### **TOPICS OF INTEREST**

4 topics

Research papers are invited in, but not limited to, the following areas:

Uncategorized

Image & Signal Processing

Artificial Intelligence & Machine Learning

Virtual & Augmented Reality
