

📅 April 24-25, 2025

CONFERENCE WEBSITE: <https://isdfs.org/wdiaa-2025/>

| About the Conference

This workshop is designed to empower participants with essential tools and techniques needed to harness the full potential of data analytics. This hands-on workshop will introduce Alteryx’s powerful, user-friendly platform, guiding attendees through data preparation, blending, and transformation processes that can elevate their data analysis skills to the next level. Participants will gain practical experience in key areas, including data cleaning, advanced filtering, joining datasets, building analytical workflows, and visualizing insights—all without requiring advanced coding knowledge. This workshop is ideal for students, professionals, and data enthusiasts. Whether you’re working with sales, marketing, finance, or operational data, join us to unlock the value within your data.

Topics include but are not limited to:

- Data-Driven Decision Making Processes
- Data Analytics in Health Informatics
- Data Analytics for Business Process Improvements
- Data Analytics for Environmental Science and Sustainability

Important Dates

 APR 24
CONFERENCE DATE
April 24-25, 2025

- Data Analytics for Cyber Security and Digital Forensics
- Data Quality Models
- Data Enhancement Models
- Financial Forecasting and Risk Analysis
- Marketing and Consumer Behavior
- Predictive Modeling in Operational Efficiency
- Supply Chain Optimizations
- Text Mining and Sentiment Analysis
- The Impact of Data Analytics on Society

Workshop participants will join us for an engaging two-hour Alteryx workshop designed to equip them with essential data preparation, analysis, and automation skills using the Alteryx platform. During this hands-on session, attendees will receive practical training on creating workflows, transforming raw data into actionable insights, and more! Best of all, there is no cost to participants to attend this workshop!
