| About the Conference

A series of Workshops on Uncertainty Processing (WUPES) has been held in Czechia every third year since 1988 (WUPES'22, WUPES'18, WUPES'15, WUPES'12, WUPES'09, and WUPES'06).

Like the previous meetings the forthcoming workshop will foster creative intellectual activities and the exchange of ideas in an informal atmosphere. Therefore we aim at a limited number of participants (30-40).

We invite submissions of papers on Uncertainty in Artificial Intelligence, Bayesian Networks, Conditional Independence, Stochastic Analysis, Algebraic Statistics, Information-Theoretical Inequalities, Combinatorial Methods for Secret Sharing, Fuzzy Analysis, Machine Learning, Decision Theory, Management Science, and related fields.
