## | About the Conference

The Technical Committee of the 2025 6th Asia-Pacific Conference on Image Processing, Electronics and Computers (IPEC2025) invites the submission of original research papers in the fields of theoretical, experimental, and applied electronics and computers. All accepted papers will be published in the conference proceedings, which will be sent to EI Compendex, Scopus for indexing service. Each submission is anonymously reviewed by two independent reviewers, to ensure the final high standard and quality of submitted papers. Topics include but not limited to:

1. Image Processing
  - Computational photography
  - Image-based computer graphics
  - Image processing
  - Segmentation, object retrieval
  - Computer graphics and visualization
  - Computer vision
  - Image scanning, display and printing
  - Machine learning
  - Virtual reality
  - Graphical simulation
  - Holography

### Important Dates

 **CONFERENCE DATE**  
**May 16-18, 2025**

Pattern recognition

## 2. Electronics

Motors and appliances

Modeling simulation and monitoring diagnosis

Electrical engineering

Power information analysis and processing

Electronic technology

Power systems

Automatic control

Signals and systems

Microcomputer principle and application

Communication and information system

Signal and information processing

## 3. Computers

Emerging technologies in digital signal processing

Theoretical computer

Computing theory

Information coding theory

Algorithm

Programming theory

Concurrent, parallel and distributed systems

Database and information retrieval

Applied computer science

Artificial intelligence

Machine translation

Information science

Software engineering

### **TOPICS OF INTEREST**

3 topics

Research papers are invited in, but not limited to, the following areas:

Electrical &  
◉ Electronics  
Engineering

◉ Uncategorized

◉ Image & Signal  
Processing
