SCOPE

AND OVERVIEW

---

The workshop is dedicated to addressing the pressing issue of online violence against women by fostering dialogue and innovation. The workshop will explore global challenges and solutions for gender-based violence and the impact of online harms on women, among others. We aim to encourage the development of

technological and interdisciplinary frameworks and innovations to ensure women's online safety.

The workshop aims to review progress in approaches combating online violence against women, identify persistent barriers, and propose solutions to emerging challenges. Topics of interest include, but are not limited to:

\*

Detection and prevention of gender-based online violence (e.g., harassment, stalking, cyberbullying)

\*

Sentiment and emotion analysis in abusive or harmful online interactions towards women

\*

Gender bias identification and mitigation in AI

\*

Human-centered approaches for online safety applications

\*

Approaches to preventing, understanding, identifying and mitigating online harms faced by women with multiple marginalised identities (e.g., misogynoir, LGBTQ+ women, or women from religious or cultural minorities)

\*

Analysis of tracking devices, surveillance tools, and hidden cameras misused against women

\*

Detection and mitigation of non-consensual deepfake generation and dissemination

\*

Interdisciplinary approaches to identifying and addressing online harm

\*

Legal and ethical frameworks for protecting women online

\*

Psychological, social, and legal impacts of online technology when used for gender-based abuse

PAPER

FORMAT AND SUBMISSION INSTRUCTIONS

---

We

welcome both new and recent research, including non-archival submissions to showcase work published elsewhere, if it is especially relevant to the workshop's theme. Accepted formats include:

\*

Long papers: Maximum 8 pages

\*

Short papers: Maximum 4 pages

\*

Position, idea, and emerging problem papers:

Maximum 4 pages

\*

Non-archival submissions: Up to 2 pages

For  
full details, visit our Call  
for Papers  
page.

Further,  
at least one author of each accepted workshop  
paper has to register. Workshop attendance is only  
granted for registered participants. Accepted  
papers (except for non-archival submissions) will  
be included in the workshop proceedings, which  
will be published  
as companion proceedings of The Web  
Conference, and indexed according to the main  
conference policy.

ORGANISING  
COMMITTEE

---

Workshop  
chairs:

\*

Ángel Pavón Pérez, The Open University

\*

Miriam Fernandez, The Open University

\*

Tracie Farrell, The Open University

\*

Debora Nozza, Bocconi University

 **TOPICS OF INTEREST**

2 topics

Research papers are invited in, but not limited to, the following areas:

◦ Computer Science  
& Software  
Engineering

◦ Artificial  
Intelligence &  
Machine Learning
